

EMPTINESS OF BLACK

(Music: nangoo - Lyrics: nangoo)

It's deep in the dark black night
When everything is wonderfully quiet
Perceptions of another sight

I'm sitting in the emptiness of black
Everything - peacefully connect
Deep density shows its calm effect
Makes this moment forever perfect

Yesterday is already so far away
And the night suffocates the apathy of day

**But deeply, so deeply I'm sad
Only in this emptiness of everlasting black
I can't stop all my tears**

Sometimes I come across the hell
Sometimes I'm under a seraphically spell
These are the secrets of the night
These are the secrets of my fight

It's the night in me...
